-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3634

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4)

because:

Reference characters "5,5a,5b,5c,5d,5e" have been used to designate both "the buttons" and "the ties";

Reference characters "6,6a" have been used to designate both the "row of loops" and the "row of openings";

Reference character "4" has been used to designate both the "button row" and the "tie row";

In addition, the drawings are further objected to for figure 1 does not illustrate the reference numerals "4 and 6b" as recited on page 3, line 11 or the reference numeral '2 as amended to denote the pane of figure 7.

Furthermore, the reference numeral 4 as depicted in the drawings has its lead line denoting the tab 3 as opposed to its respective row.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. The specification is objected to because it uses common reference numerals to denote different elements. For example: "button row 4" and "tie row 4"; "loop rows 6,6a,6b" and "openings 6,6a,6b"; "buttons 5,5a,5b,5c,5d,5e" and "ties 5,5a,5b, 5c,5d,5e"; "folded sections 18,20" and "front sections 18,20".

Correction is required.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9,11-14,16,17 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Gordon '508. Gordon '508 discloses a raisable window treatment 10 comprising rows of ties 11,13, rows of openings 14, and a top tab 6.

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 10,15,18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gordon '508. While Gordon '508 sets forth only two rows of ties as opposed to the claimed three rows of ties, it would have been within the purview of the artisan of ordinary skill in the art to have utilized additional rows of ties for their explicit purpose of raising the window treatment.

5. The applicant states that Gordon does not disclose a row of ties or openings positioned along an upper portion of a window treatment or a row of ties or openings extending horizontally across a window treatment. This is not convincing for the ties

Art Unit: 3634

and openings of Gordon are in fact disposed horizontally across the window treatment.

Note for example the horizontal row delineated by the imaginary dashed lines 20.

Applicant's arguments have been fully considered but they are not persuasive.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
